## NOTE

## STATISTICAL DIVISIONS

In this Part, births and deaths have been shown by *Statistical Divisions*. The Statistical Divisions are groups of Local Authority Areas. Their grouping and details for each area are shown in Tables 23 and 33. For definition of Brisbane Statistical Division see below. Marriages in Tables 6 and 8 have been allocated to Statistical Divisions according to place of celebration.

*Brisbane Statistical Division.*—The division, as defined for the 1966 Census, includes the Cities of Brisbane, Ipswich, and Redcliffe, and parts of the Shires of Albert, Beaudesert, Caboolture, Moreton, Pine Rivers, and Redland. The City of Brisbane, which is a single Local Authority Area, has been subdivided into Statistical Areas which are separately itemised and grouped into Suburban Divisions.

In tables of deaths and hospital cases, where dissection into tropical and sub-tropical has been made (Sections 6 and 7), the Statistical Divisions have been grouped as follows:

*North of Tropic, Coastal.*—Mackay, Townsville, Cairns, Peninsula, and northern portion of Rockhampton (Local Authorities of Rockhampton, Broadsound, Fitzroy, and Livingstone).

*North of Tropic, Inland.*—North-Western, northern portion of Far-Western (Local Authorities of Boulia and Winton), and northern portion of Central-Western (Local Authorities of Aramac, Belyando, Longreach, and Peak Downs).

*South of Tropic, Coastal.*—Brisbane, Moreton, Maryborough, and southern portion of Rockhampton.

*South of Tropic, Inland.*—Downs, Roma, South-Western, southern portion of Central-Western, and southern portion of Far-Western.
